DETAILED ACTION

Priority

The Examiner acknowledges applicants' claim to the benefit of priority under Title 35, United States Code, § 120 of U.S. patent applications 10/371,894 and 09/269,490.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: **1.** On page 1 of the Declaration, the filing date of U.S. Serial No. 09/269,490 is incorrectly stated as being "June 8, 19991." The correct filing date of that application is "June 8, 1999." **2.** On page 1 of the Declaration, the foreign priority document number is incorrectly stated as being "197 32 872.5." According to the Foreign Application Priority Data for U.S. Patent No. 6,663,981 B1, the correct document number is "197 32 872."

Claim Objections

Claim 1 is objected to because of the following informalities: In the last line of claim 1, the numerical value "1.3%" is incorrect. The remanence B_r value should be expressed as "1.3T"; see the last line of claim 23. Appropriate correction is required.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 1775

Claims 1 to 25 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 to 9 of U.S. Patent No. 6,663,981 (Weber, et al.). Although the conflicting claims are not identical, they are not patentably distinct from each other because both sets of claims recite the same compositions of a marker for a magnetic anti-theft security system having alloy composition ranges that are overlapping, and both sets of claims recite the same process steps for manufacturing an activation strip for a magnetic anti-theft security system having the same process step conditions which utilize alloy composition ranges that are overlapping.
